SKILLS

Technical Skills: Power BI, SQL, Snowflake, Tableau, Financial Modeling, Salesforce CRM, Alteryx, AWS, Dataverse, Python(Pandas, NumPy, Matplot, Scikit-learn), Power Automate, Azure DevOps, Agile, A/B Testing, Github, Excel

Certifications: Google Analytics (2021), Udacity SQL for Data Analysis (2022), Olympus Analytics in Finance (2022), Project Management 101/102 (2025)

WORK EXPERIENCE

Caterpillar Inc. Corporate *June 2025- Present*

Business Intelligence Analyst - Global Financial Services Division

- **Eliminate $300k/year of engineering labor** by architecting an AI framework in Snowflake Cortex and AWS that standardizes and cleans competitive intelligence data for consistent market comparisons based on product features.
- Remove analyst bottlenecks around pricing and compliance questions/requests by **building and training an AI agent** in Copilot Studio to become the centralized source of pricing-related information.
- **Limit claim processing errors to less than 1%** of all submitted discounting claims by integrating an LLM-based workflow that processes claims data to identify duplicate, incomplete, or incorrectly valued credits and debits.
- Automate the pricing approval process, **channeling over 25 requests per month**, that ran on Excel, PowerPoint, and email with a Power App handling the approval flow, data querying, impact summary, and record logging.
- Enable enterprise-wide reporting on demand around revenue, discounting spend, profitability, and global opportunity by building and managing a suite of Power BI dashboards and their adoption plans to consolidate data from various source systems (ERPs, invoicing systems, CRMs, etc.) using SQL in Snowflake.
- Lead cross-functional ad-hoc analytics requests, translating requirements into Azure DevOps work, running process mapping, QA/UAT across Pricing, Sales, IT, and Marketing, and ensuring smooth adoption across cross-functional teams.

Revenue Analyst - Global Parts Pricing *August 2022-June 2025*

- **Accelerated average inquiry response time from customers and dealers by 40%** by leading the rollout of a Salesforce CRM (500+ monthly inquiries), creating an adoption plan for users, and documenting clear requirements.
- Oversaw the strategic and financial direction of a **portfolio of parts exceeding $800M in revenue** through inflationary analysis, market/competitive research, and sales data.
- Improved pricing request turnaround time by **consolidating 8,000+ dealer requests** into a stakeholder-facing dashboard, enabling faster, data-driven decisions around strategic pricing.
- Generated **$1.9M+ in projected global sales growth** by leading 7+ strategic pricing reviews, aligning discount strategies with market demand, competitive benchmarks, and customer value.
- Expanded **global revenue for products under my portfolio by 13%** over two years by creating an Opportunity Tracker using Power BI and SQL that allowed sales to identify regions and customers with high opportunity and rising lost sales.
- **Collaborated closely across 5+ departments** including Sales, IT, Engineering, Operations, and Marketing to create launch plans for new products and ensure a successful onboarding across various markets.

Parts Pricing Summer Intern - Global Parts Pricing *May 2022-August 2022*

- **Reconciled 3 major contracts** with major account customers by creating financial models in Excel to simulate price change impact.
- Deployed **40+ price changes** to CAT parts to account for human errors, inflation, and sudden demand changes.
- Developed an **order tracking dashboard averaging 15k purchase orders per month** using SQL and PowerBI to detect delays in shipments and deliveries.

PROJECTS

Caterpillar Global Repository of Industry Data (GRID) Hackathon *June 2026*

- Placed **2nd out of 38 teams** by building a web application using React that surfaced the highest opportunity construction and mining projects worldwide, featuring an AI agent that predicted high-value customers and data visualizations of competitive data, regional project value and sales targeting priorities.

EDUCATION

University of Arizona, Eller College of Management **Tucson, AZ**

Bachelor of Science in Business Administration

- **Minor:** Statistics and Data Science
- **Honors:** National Merit Finalist Scholarship, National AP Scholar, Dean's List (2020,2021,2022)
